

INDUSTRIAL REPAIR

INDUSTRIAL REPAIR SOLUTIONS THAT DECREASE YOUR DOWNTIME

Today's industrial world is in a state of constant change.

York has been known for our electric motor repair for over 75 years. We also have an Industrial Repair division that can perform complete, timely repairs on brakes, cylinders, Eddy Current clutch, gearboxes, magnets, pumps, specialty machining repair, and other electro-mechanical related equipment. Our customers trust our vast knowledge and flexibility to handle a large variety of industrial repairs that includes even things we've never done previously. York's experience and can-do attitude are what our customers come to expect from us. And so should you. The York Industrial Repair division provides 24-hour a day, seven days a week service. So, whether you are a small manufacturer or a large plant, you will be able to stay on target with your productivity needs by letting us help you keep your equipment running!
